

# Azure Virtual Desktop Discovery Workshop

Evaluating your opportunity, developing your business case

Azure Virtual Desktop offers the best virtual desktop experience today, while delivering significant cost savings compared to other VDI options.

Led by our team of Modern Workplace consultants, the **Azure Virtual Desktop Discovery Workshop** will help you assess your opportunity, build your business case and demonstrate value to budget holders.

### What you'll learn:

- AVD business opportunity
- License considerations
- Ensono managed service options
- Indicative costs
- Available funding
- Next steps to take

### Mapping out your workshop

#### Step 1

**Reviewing** your priorities and applications landscape.

#### Step 2

**Demonstrating** Azure Virtual Desktop in action.

#### Step 3

**Analysing** your use cases and options.

#### Step 4

**Presenting** your solution.

#### Step 5

**Highlighting** costs and funding.

#### Step 6

**Your personalised** AVD roadmap.\*

## Agenda

**Your Azure Virtual Desktop Discovery Workshop is delivered at your convenience. It will last approximately 4 hours, with natural breaks throughout the session.**

While your executive sponsor does not have to join for the full session, we ask that they are present at key points throughout the day. These sections are **highlighted** on the agenda below:

Minutes	Session	Description
10	Introduction	Workshop objectives and expected outcomes
30	Review	Exploring your business and IT priorities, and examining your current landscape
10	Ensono	Introducing our capability, credentials and customer value
30	AVD	Understanding AVD, how it works and a live demo
30	Discovery	Data gathering to identify your application requirements around AVD and use cases
30	Break	
70	Analysis	Delivering an overview of your envisaged AVD environment, including cost optimisation options and management processes to meet your needs
10	Break	
20	TCO	Analysing your commercial benefits and available funding
20	Solution	Presenting back your high-level solution
10	Outcomes	Post-workshop reports with your personalised roadmap – delivered 24-48hrs after workshop
10	Summary	Recap and next steps

## Who should attend?

- **IT leadership / management** – to discover the use cases and benefits, and how they apply to your business
- **End User Computing teams** – to uncover the end-user experience, ease of integration and management
- **Key decision-makers** – to analyse the business benefits and potential TCO savings
- **Executive sponsor** – to understand the business case

## Success criteria

The more we understand of your existing application infrastructure, the more value you will gain from the workshop. Please come ready to answer questions.

## Personalised Company Roadmap

Within 48 hours of the workshop, we will provide a detailed personalised roadmap report for your review – including a total cost of ownership outline, high level architecture and PoC deployment timeline.
