# **Speed with Precision**

# Accelerating your SAP to Azure migration

When it comes to migrating your SAP estate to Azure, there's no such thing as a 'typical' journey. Every start point is different, and every challenge is unique. Whether you're migrating a current estate or moving to S/4HANA, the only journey that matters is the one you're on. Ensono's SAP on Azure service confidently assesses, plans and executes your migration. Once complete, we can stay with you to deliver continuous improvements and peak performance.

Ensono's SAP on Azure service: all the support you need, whenever it's needed.

Join us at any stage of your journey

SPEAK TO AN SAP EXPERT: INFO@ENSONO.COM

#### SAP ACTIVATE

Rapid-start assessment to design and deploy of your applications. We take you from envisioning through pilot to full migration in Azure in lightening quick time.

#### SAP MIGRATE

Transition with pace and purpose. With different methods to choose – Homogenous, Heterogenous or Database Migration Option (DMO) – we'll take you on the right route to Azure.

#### SAP INNOVATE

Accelerating your business in the cloud. Our SAP and Azure experts guide you through innovation and build capacity so you can execute a shared transformation roadmap.
